

Area Candidate Wires President Views on Cuba

Ted Bruinsma, candidate for Congress from the 17th District, recently wired President Kennedy a three-point program to deal with the Cuban crisis. It includes a naval blockade of Cuba, efforts to stop our allies from providing Russia with ships for Cuban trade, and recognition of a Cuban government in exile.

The text of Bruinsma's wire is as follows:

"I believe it imperative that the United States begin hard-hitting negotiations with our allies to stop shipment of war goods to Cuba. I also urge that you invoke the Monroe Doctrine and establish a sea blockade around Cuba expressly to keep war materials from being shipped to that island. I recommend also that you give official recognition to a responsible Cuban government in exile."

Bruinsma said the ugly pattern of communism has unfolded in Cuba. "First, revolution introduced communism," he explained. "Then Russia stabilizes and consolidates control. Then the area becomes a springboard for subversion or invasion of other countries." He said the failure to act at the Bay of Pigs was a tragic blunder.

He said the Kennedy administration has interpreted the Monroe Doctrine to be an expression of what we don't like in the Western Hemisphere instead of a flat statement of what we will not tolerate from would-be aggressors.

Area Man Leads Class On Labor-Management

A Torrance man will conduct a course in "Labor Management Relations" at Los Angeles Trade Tech College on Monday nights, according to the institution.

Instructor for the 7 p.m. course is E. W. Shimko. Registration may be made at Orville Wright High School, 5506 W. 80th St., Westchester. No prerequisites will be required for enrollment.

The two-hour course will cover unions, management relations, the development of the National Labor Relations Act, the Landrum-Griffith Act, history and development of labor-management relations and case studies in the field of labor management relations.

County Approves Paving Project

LOMITA — Approximately \$2500 has been allocated for improvements on Narbonne Ave., south of 243rd St.

County supervisors said the project will include extension of pavement on the east side of the roadway to join with new curbs and gutters.

\$1000 CHECK is presented to Mrs. Andrew A. Wisener, widow of a long-time Torrance Unified School District employee who died June 25. Making the presentation is (left) Harold Woodman, executive officer of Torrance

School Employees Local 1101; and John G. Dolittle, treasurer. This is the first death benefit paid by the union's group insurance plan since installed last year.
